

Four Mobile Apps to Encourage Healthy Habits

Modified from *Family Practice Management* article:

David Rebedew, MD, Four Mobile Apps to Encourage Healthy Habits, *Fam Pract Manag*. 2018 Jan-Feb;25(1):OA1-OA3.

Application	Platforms Available	Cost	What it does	Ease of use
 MY DIET COACH	Android; iOS 10.0 or later for iPhone, iPad, and iPod touch.	Free for the basic version; \$4.99 per month for the “pro” version.	<p>With the free version, patients can set one daily challenge, which may be related to physical activity (e.g., going for a walk), eating (e.g., watching serving size), or self-control (e.g., avoiding snacking).</p> <p>Patients can log their meals using a barcode scanner, count their calories burned, see how many calories they have left for the day, photograph their meals, and track water intake.</p>	<p>Patients enter their weight, height, goal weight, baseline activity level, weekly weight loss goal, and motivation for losing weight.</p> <p>The app can also import data automatically from the Apple Health App and FitBit devices.</p> <p>Available in English, French, German, Italian, Polish, Portuguese, Russian, and Spanish.</p>
 MANGO HEALTH	Android 4.1 or later; iOS 8.0 or later for iPhone, iPad, and iPod touch.	Free.	<p>Allows patients to set reminders both to take their medications and to request refills.</p> <p>Can schedule reminders to track their blood glucose, blood pressure, mood, and weight.</p> <p>Each time patients take their medications and achieve other goals, they gain points. These points can automatically enter patients to win a weekly raffle for such things as gift cards to popular stores.</p>	<p>Patients can enter generic or brand names, and the app updates the appearance of the drug automatically.</p> <p>Patients can add notes, such as a reminder to take a certain medication with food.</p> <p>Available in English only.</p>

 <p>LOSE IT!</p> 	<p>Android; iOS 8.0 or later for iPhone, iPad, and iPod touch.</p>	<p>Free for basic version; \$39.99 per year for the premium version.</p>	<p>Patients can use the app to track calories, body measurements, exercise, weight, and health goals.</p> <p>Patients can also join weight loss, exercise, and healthy eating challenges with other users within the online community.</p> <p>With the premium version, patients can plan meals, gain nutrition insights, and get recommendations on how to further their weight loss.</p>	<p>Tracking calories using Lose It!'s “Snap It” feature or its barcode scanner takes only seconds.</p> <p>The basic version syncs with Apple Health, Google Fit Sync, and Wifi scales. The premium version integrates with FitBit, Misfit, Healthkid, and Withings scales.</p> <p>Available in English, French, Spanish, German, Brazilian Portuguese, Simplified Chinese, Japanese, or Korean.</p>
 <p>PLANT NANNY</p> 	<p>Android 4.0 or later; iOS 7.0 or later for iPhone, iPad, and iPod touch.</p>	<p>Free, with in-app purchases.</p>	<p>Patients are charged with caring for a series of cartoon plants that “grow” when the user indicates he or she has consumed a predetermined serving of water.</p> <p>The app also reminds users how many servings they need each day and tracks water consumption over time.</p> <p>App users can earn upgrades as they water their plant consistently over time, including new plants, flowerpots, and background scenes.</p>	<p>The app is very easy to set up, and it takes just a couple seconds to “water the plant” for each serving of water consumed.</p> <p>In-app advertisements do slow down the app a bit.</p> <p>Available in English, French, German, Italian, Japanese, Korean, Portuguese, Russian, Simplified Chinese, Spanish, Traditional Chinese, Ukrainian.</p>
