A searchable database of resources available to people with disabilities in New Mexico.

Removing Barriers to Health Care: A Guide for Health Professionals

This booklet, developed by NCODH and the Center for Universal Design at North Carolina State University, walks the health care provider through the process of making a medical facility physically accessible. It is complete with specific ADA requirements, picture illustrations, and some helpful tips on creating accessible environments and services.

A Provider's Guide for the Care of Women with Physical Disabilities and Chronic Health Conditions

This guide is designed for clinicians to improve their knowledge and practice in providing care to women with physical disabilities and chronic health conditions. The guide reviews strategies for management as well as specialized approaches. While the first sections focus on access to general medical care and removing common barriers, other sections cover the pelvic exam, cancer screening, contraception, pregnancy, menopause, aging, health promotion, as well as other critical components of comprehensive reproductive health care.
